

 **TRAVEL: Traffic and Congestion**

Note down five advantages and five disadvantages of congestion zones.

**Advantages**

1. ....
2. ....
3. ....
4. ....
5. ....

**Disadvantages**

1. ....
2. ....
3. ....
4. ....
5. ....

**Activity 1**

Using fact sheet [Travel – Traffic and Congestion](#), consider the ways in which congestion is managed in the UK – e.g. road infrastructure, congestion zones, park and ride, and parking restrictions. Identify which are already used in your local area and any that you think would benefit your community.

**Activity 2**

Choose a country or city (e.g. France or Berlin) and research how they manage their congestion. Make a comparison between there and the UK, identifying any similarities or differences. Which congestion scheme do you think is better? Why?
