

## Create a poster

**1 Make a poster for your classroom to remind everyone to wear something white, or reflective, near traffic at night.**

- Think of the message and make sure it's easy to remember.
- You can use paint, crayon or make a fabric collage – it can be any size!

**2 Ask your teacher if a group of you can make a mural to go on the wall.**

Show all these things:

- It's dark, but the street lights are lit and shining down
- Lots of different vehicles (some parked, some driving along with headlights on)
- Lots of pedestrians (some in dark clothes - who are not easy to see, some wearing something white or reflective). Don't forget to add in children wearing **Cats' Eyes Reflectors!**
