

## Energy Dilemma

**Imagine a house with no pipes or cables! No electricity, gas or water!**

What would you do for light and heat?

---

---

---

---

---

How would you cook?

---

---

---

---

---

How would you get water for drinking, washing and flushing the toilet?

---

---

---

---

---

What would you do for entertainment?

---

---

---

---

---
