

The Cost of Energy

1. Name three things we use to make, or generate, electricity.

2. What powers a car?

3. What is grown by farmers and turned into bread?

4. What are lots of wind turbines together called?

5. What do 'pylons' do?

6. How much can electricity cost a month for a family of four?

7. How much can food cost a month for a family of four?
